

PLAN YOUR FUTURE

CHAMELEONS IS A NEW EUROPEAN MODEL FOR PHD TRAINING, TAILORED TO STUDENT AND SOCIETAL NEEDS.

ARE YOU A MASTERS/PhD POST DOCTORAL STUDENT? ARE YOU CONCERNED ABOUT YOUR PROFESSIONAL FUTURE?

We are aware of the existing gap between academic curricula and the demands and needs of the future employment market.

CHAMELEONS introduces a new way of understanding doctoral education: it offers additional opportunities for Masters/PhD/Post-Doctoral students through a suite of modules that involve interdisciplinary, intersectoral and international experiences. We facilitate opportunities for students to work on real world problem across sectors and geographies.

Graduates of this programme will broaden their skills to open up and maximise employment inside and outside academia and address the EU's societal challenges.
